

the australian longitudinal study on women's health

data book

for the eleventh and twelfth six month follow-up surveys of the 1921-26 cohort (2016-2018)

November 2018

Data book for waves 11 and 12 of the six monthly survey of the 1921-1926 cohort (aged 89-97 years)

This work is copyright. Permission to use or reproduce material in this book for the purpose of free distribution is not required, provided that proper acknowledgement of the source is given. For other uses, apart from any permitted use under the Copyright Act 1968, no part may be reproduced by any process without written permission from the Director, Australian Longitudinal Study on Women's Health, University of Queensland.

Acknowledgements

This study is funded by a grant from the Australian Government Department of Health. This document was prepared by Richard Hockey, with help from the data management group of the Australian Longitudinal Study on Women's Health (ALSWH) at the Universities of Queensland and Newcastle. The research team would like to thank all participants who contributed to the project.

Notes

This data book provides a summary of responses to the eleventh and twelfth six monthly follow-up surveys for the 1921-1926 ALSWH birth cohort. The surveys were returned between June 2016 and June 2018. There were 941 responses to the eleventh survey and 706 to the twelfth survey.

This data book is ordered by the order of the questions on the paper questionnaire. The questionnaire number is given where appropriate. Some derived variables are given in place of the questionnaire item or immediately after it. The derived variables do not have any questionnaire numbering.

The frequencies in this data book were weighted according to the area classification to account for the deliberate over-sampling of women from rural and remote areas. The missing amounts were not weighted and nor were the number of non-missing values given for the continuous responses.

For information on the derived variables refer to the ALSWH website (http://www.alwsh.org.au/). The ALSWH website has general information about the project; the investigators and staff; publications and presentations; information for participants; surveys; and information for potential data users.
