the australian longitudinal
study on women's health

d a t a b o o k

*for the fifth survey of the 1989-95 cohort
2017 (when they were aged 22-27 years)*

November 2018

Data book for the fifth survey of the 1989-1995 cohort (aged 22-27 years)

This work is copyright. Permission to use or reproduce material in this book for the purpose of free distribution is not required, provided that proper acknowledgement of the source is given. For other uses, apart from any permitted use under the Copyright Act 1968, no part may be reproduced by any process without written permission from the Director, Australian Longitudinal Study on Women's Health, University of Queensland.

Acknowledgements

This study is funded by the Australian Government Department of Health. This document was prepared by Hsiu-Wen Chan and David Fitzgerald, with help from the data management group of the Australian Longitudinal Study on Women's Health (ALSWH) at the Universities of Queensland and Newcastle. The research team would like to thank all participants who contributed to the project.

Notes

From June 2017 to April 2018, 8495 valid surveys were returned by members of the ALSWH 1989-95 birth cohort. These were all online surveys.

This data book is ordered by the order the questions occurred in the questionnaire. The derived variables are either placed in the order of the questionnaire items from which they were derived or at the end of this data book.

The frequencies in this data book have not been weighted.

For information on the derived variables refer to the ALSWH website (<http://www.alwsh.org.au/>). The ALSWH website has general information about the project; the investigators and staff; publications and presentations; information for participants; surveys; and information for potential data users. If you have any queries, please contact us at:
