This study is funded by the Australian Government Department of Health. This document was prepared by Carl Holder and David Fitzgerald, with help from the data management group of the Australian Longitudinal Study on Women's Health (ALSWH) at the Universities of Queensland and Newcastle. The research team would like to thank all participants who contributed to the project.

Notes

During 2006 and 2007, 9,145 valid surveys were returned by members of the ALSWH 1973-78 birth cohort.

This data book is ordered by the order the questions occurred in the questionnaire. Some derived variables are given in place of the questionnaire items or immediately after them.

The frequencies in this data book have been weighted.

For information on the derived variables refer to the ALSWH website (<http://www.alwsh.org.au/>). The ALSWH website has general information about the project; the investigators and staff; publications and presentations; information for participants; surveys; and information for potential data users.
