

Data book

For the sixth survey of the 1989-95 cohort
Surveyed 2020, when aged between 24-30 years

November 2020

Data book for the sixth survey of the 1989-1995 cohort (aged 24-30 years)

This work is copyright. Permission to use or reproduce material in this book for the purpose of free distribution is not required, provided that proper acknowledgement of the source is given. For other uses, apart from any permitted use under the Copyright Act 1968, no part may be reproduced by any process without written permission from the Director, Australian Longitudinal Study on Women's Health, University of Queensland.

Acknowledgements

This study is funded by the Australian Government Department of Health. This document was prepared by David Fitzgerald, with help from the data management group of the Australian Longitudinal Study on Women's Health (ALSWH) at the Universities of Queensland and Newcastle. The research team would like to thank all participants who contributed to the project.

Notes

From May 2019 to August 2020, 8346 valid surveys were returned by members of the ALSWH 1989-95 birth cohort. These were all online surveys.

This data book is ordered the same as the questions the questionnaire. Derived variables are either placed in the order of the questionnaire items from which they were derived or at the end of this data book.

***The frequencies in this data book have not been weighted.**

For information on the derived variables refer to the ALSWH website (www.alswh.org.au). The ALSWH website has general information about the project; the investigators and staff; publications and presentations; information for participants; surveys; and information for potential data users.
